

Product Information

AVENO Petrol Power&Protect

0002-300005

Description

AVENO Petrol Power&Protect is a highly effective fuel additive for the care, cleaning, and protection of the entire fuel system, suitable for all gasoline engines, including those with modern direct injection systems. Thanks to its high-quality cleaning components, deposits and oxidation residues on fuel lines, injection needles, cylinders, spark plugs, and in the combustion chamber are effectively prevented, ensuring optimal combustion. AVENO Petrol Power&Protect offers high protection against corrosion and oxidation and effectively contributes to fuel savings and increased engine performance. It extends the service life of catalytic converters and lambda sensors and ensures technically safe and economical vehicle operation.

Instructions for use

Add the contents of the can to the tank before refueling. We recommend using it every 2,000 km or as needed. One can is sufficient for 60-75 liters of gasoline. At least the fuel quantity should correspond to the reserve volume.

Properties

- Guarantees optimal combustion
- High protection against corrosion and oxidation
- Fuel saving
- Increases engine performance
- Cleans fuel lines, injection needles, cylinders, spark plugs, and combustion chamber
- Extends the service life of catalytic converters and lambda sensors

Technical specifications

Properties	Data	Unit	Testing under
Appearance	YELLOW		VISUELL
Density at 15°C	832	kg/m³	DIN EN ISO 12185:1997-11
Flash Point (COC)	110	°C	DIN EN ISO 2592:2018-01
Pour Point	-36	°C	ASTM D 7346:2015
